

1. Build and deploy the sample-app with 2.0.8:

```
CustomerBean.java build.gradle RewriteConfig.java
@ apply plugin: 'war'

repositories {
    mavenCentral()

    maven {
        url "https://repository.jboss.org/nexus/content/repositories/thirdparty-releases/"
    }
}

dependencies {
    def deltaspikeVersion = "0.5"
    providedCompile 'org.jboss.spec:jboss-javaee-6.0:3.0.2.Final'

    compile 'org.ocpssoft.rewrite:rewrite-servlet:2.0.8.Final'
    compile 'org.ocpssoft.rewrite:rewrite-integration-faces:2.0.8.Final'
    compile 'org.ocpssoft.rewrite:rewrite-integration-cdi:2.0.8.Final'

    // Deltaspike
    // compile group: 'org.apache.deltaspike.core', name: 'deltaspike-core-api', version: deltas
    // compile group: 'org.apache.deltaspike.core', name: 'deltaspike-core-impl', version: delta
    // compile group: 'org.apache.deltaspike.modules', name: 'deltaspike-jsf-module-api', versio
    // compile group: 'org.apache.deltaspike.modules', name: 'deltaspike-jsf-module-impl', versi
}
}
```

2. Type the following url and press enter

3. parameter given in url is passed to customerId property:

4. Build and deploy app with 2.0.9:

```
CustomerBean.java build.gradle RewriteConfig.java
@ apply plugin: 'war'

repositories {
    mavenCentral()

    maven {
        url "https://repository.jboss.org/nexus/content/repositories/thirdparty"
    }
}

dependencies {
    def deltapikeVersion = "0.5"
    providedCompile 'org.jboss.spec:jboss-javaee-6.0:3.0.2.Final'

    compile 'org.ocpssoft.rewrite:rewrite-servlet:2.0.9.Final'
    compile 'org.ocpssoft.rewrite:rewrite-integration-faces:2.0.9.Final'
    compile 'org.ocpssoft.rewrite:rewrite-integration-cdi:2.0.9.Final'

    // Deltaspika
    // compile group: 'org.apache.deltaspika.core', name: 'deltaspika-core-a'
    // compile group: 'org.apache.deltaspika.core', name: 'deltaspika-core-i'
    // compile group: 'org.apache.deltaspika.modules', name: 'deltaspika-jsf'
    // compile group: 'org.apache.deltaspika.modules', name: 'deltaspika-jsf'
}
```

5. Type the following url and press enter

6. parameter given in url is NOT passed to customerId property:
